- Actively participated in team meetings, contributing to problem-solving and improvements.

Education

Maharishi Dayanand University, Bachelor of Technology **2016**
Major: Mechanical Engineering

Kendriya Vidyalaya, Class XII **2011**
Major: Physics, Chemistry, Mathematics

Kendriya Vidyalaya, Class X **2009**
Major: English, Hindi, Social Science, Mathematics

Skills

- Technical - SQL, Python, NumPy, Pandas, Power BI, Excel, Tableau.
- Analytical – Data & Statistical Analysis, Data Mining, Data Profiling, BI, Data Visualization,
- Soft - Problem-Solving, Cross-functional Collaboration, Project Management, Communication.
- Other – ChatGPT, LLM, AB Testing

Certifications & Projects

1. SQL for Data Science, University of California

- Data manipulation using SQLITE3 and MySQL Databases.
- Acquired experience in joining tables using primary and foreign keys, automating searches with views, and expediting searches with indexes.

2. Data Analysis with Spreadsheets and SQL

- Clean data with spreadsheets and use common spreadsheet formulas to calculate summary statistics.
- Write foundational SQL statements and queries to extract data in spreadsheets.

3. Accenture North America Data Analytics and Visualization Job Simulation

- Completed a simulation focused on advising a hypothetical social media client as a Data Analyst.
- Cleaned, modelled and analyzed 7 datasets to uncover insights into trends for decision making.
- Prepared a PowerPoint deck and video presentation to communicate key insights for the client and internal stakeholders.

4. Microsoft Power BI Data Analyst

- Developed expertise in modeling, visualizing, and analyzing data with Power BI.
- Gained proficiency in preparing Excel data for Power BI analysis.
- Acquired skills in DAX calculations and creating compelling reports and dashboards.

5. Python for Data Science, AI & Development

- Apply Python programming logic Variables, Data Structures, Branching, Loops, Functions, Objects & Classes.
- Demonstrate proficiency in using Python libraries such as Pandas & Numpy and developing code using Jupyter Notebooks.
- Access and web scrape data using APIs and Python libraries like Beautiful Soup.
